

## Sessional Repair Worker Descriptor Form

Linlithgow Community Development Trust is a charity organisation working to make Linlithgow a wonderful place to live and to work. We manage and support a number of projects, including Active Travel, a Tool Library, a community Shed, ReFab (our textile group) and the Repair Shop. We also have a renewable energy project and provide a home in our Hub for many local classes and groups as well as supporting Linlithgow Farmily, a local grow your own project.

Our newest project is the Circular Tourism Project, funded by Zero Waste Scotland, which aims to link tourist accommodation providers in Linlithgow with share and repair services. The aims of the project are to reduce the consumption of new goods, avoid the purchase of items for single use, and provide opportunities for a more circular approach in tourism. To that end we are looking for specialist repair workers to join our team on a sessional basis.
